Subject index

Aciduria, hereditary orotic, purine and pyrimidine metabolism in: some unexpected effects of allopurinol 333
Adenomata, human parathyroid, parathyroid hormone fragments in secretory granules of 317
Adenylate cyclase activity, human gastric mucosal: effects of various cytoprotective prostaglandins 431
Adenylate cyclase, human fat cell, inhibition of, mediated via alpha-adrenoceptors 345
Adipose tissue lipolysis, human, adrenergic control of 343
Adrenaline, circulating, and blood pressure: the metabolic effects and kinetics of infused adrenaline in man 401
Adrenaline, *in vivo* and *in vitro* effects of, on conversion of thyroxine to triiodothyronine and to reverse-triiodothyronine in dog liver and heart 189
Amyloidosis, experimental murine, the role of polymorphonuclear leucocytes and T lymphocytes in 63
Antacids, effect on the occurrence of bile acid and aspirin-induced gastric lesions in rats 427
Asthma, acute severe, arterial blood gas tensions in 55
Atherosclerotic arterial disease, premature, phytosterolaemia and xanthomatosis: a case with high plant sterol absorption, impaired sterol elimination and low cholesterol synthesis 27
Atrophic mucosa of self-emptying blind loops of rat jejunum, structural and functional correlations in 393
Bartter's syndrome, effect of indomethacin upon the renin–angiotensin system in patients with 119
Bile acid synthesis and excretion following release of total extrahepatic cholestasis by percutaneous transhepatic drainage 349
Biliary lipid composition, effects of a standardized wheat bran preparation on, and bile acid metabolism in young healthy males 451
Bone loss, postmenopausal, early, prevention of: controlled 2-year study in 315 normal females 273
Calcium, intrarenal distribution in man 173
Chenodeoxycholic acid, intestinal solubilization, absorption, pharmacokinetics and bioavailability of 261
Chenodeoxycholic acid, the uncommon pharmacology of: the first regulator of biliary cholesterol levels in man 257
Cholelithiasis, human, hepatic HMGCoA reductase in: effects of chenodeoxycholic acid and ursodeoxycholic acids 325
Cholestasis, intrahepatic, bile acids and their sulphated and glucuronidated derivatives in bile, plasma, and urine of children with: effects of phenobarbital treatment 307
Cigarette smoke condensate, effect on α-antitrypsin, antileukoprotease and granulocyte elastase 373
Cirrhosis, haemostatic effects of lysine vasopressin and triglycyl lysine vasopressin infusion in patients with 49
Claudication, intermittent, capillary supply and muscle fibre types in patients with: relationships between morphology and metabolism 301
Collagen in acquired connective tissue diseases: an active or passive role? 1
Connective tissue diseases, acquired, collagen in: an active or passive role? 1
Cyclic AMP production in isolated colonic epithelial crypts: a highly sensitive model for the evaluation of vasoactive intestinal peptide action in human intestine 67
Digitoxin poisoning, the effectiveness of digoxin-specific $F(ab')_2$-antibody fragments in the treatment of: experimental investigations in the cat 93
Digitalis toxicity, advanced, treatment with specific antibodies 87
Dupuytren's disease lesions, biochemistry and histology of the connective tissue of 9
Ethanol ingestion, acute, and haem biosynthesis in healthy subjects 107
Ethynyl oestradiol, effect on biliary lipid composition in young men 77
Fibrinolysis, gastro-intestinal, and irradiation: an experimental study in the rat 139
Gastrin, molecular forms of, in peptic ulcer: comparison of serum and tissue concentrations of G17 and G34 in gastric and duodenal ulcer subjects 241
Haemolytic diseases, chronic, glucuronidation of bilirubin and the occurrence of pigment gallstones in patients with 219
Hepatic vein oxygenation, liver blood flow, and the rate of ethanol metabolism in recently abstinent alcoholic patients 211
Hypercalciura, absorptive, is there a renal phosphorus leak in recurrent stone formers with? 381
Hypercholesterolaemia, familial, metabolism of endogenous plasma triglyceride in: studies of affected and unaffected siblings of two kindreds 23
Hypercholesterolaemia, heterozygous familial, quantitative studies of very low density lipoprotein: conversion to low density lipoprotein in normal controls and primary hyperlipidaemic states and the role of direct lipoprotein in 149
Hyperlipidaemias, primary, kinetic bases of: studies of apolipoprotein B turnover in genetically defined subjects 161
Hyperlipoproteinaemia, effects on serum lipoprotein metabolism and glucose tolerance in patients with: substituting polyunsaturated fat as a single change in a Swedish diet 193
Hypertension, an *in-vivo* study of renal cadmium and 459
Hyperthyroidism, plasma cyclic nucleotide responses to insulin-induced hypoglycaemia and methacholine in patients with 81
Hypertriglyceridaemia, primary, lipoprotein lipase in adipose tissue and plasma clearance in patients with 133
Hypertriglyceridaemia, very low density lipoprotein overproduction in genetic forms of 17
Hyperuricaemia and renal insufficiency, renal handling of urate in healthy man in: circadian fluctuation, effect of water diuresis and of uricosuric agents 285
Insulin and glucose uptake and insulin sensitivity in patients with peripheral arterial insufficiency 37
Interferon: the need for clinical trials 177
Jejuno-ileal bypass, effects of, on serum lipoproteins and glucose tolerance in severely obese patients 363
Labetol in the exercising human forearm, haemodynamic and metabolic effects of

combined adrenergic α- and β-receptor blockade with 431
Laxatives, interaction with enzymes of cyclic AMP metabolism from human colonic mucosa 231
Leucocytes, human polymorphonuclear, subcellular localization and properties of adenosine triphosphatase in 475
Leukaemia, acute and chronic lymphoid, insulin receptors in 387
Lipase, lipoprotein and hepatic, evaluation of the roles of, in lipoprotein metabolism: *in vivo* and *in vitro* studies in man 487
Lipase, post-heparin plasma lipoprotein and hepatic, activities of, during pregnancy and lactation 469
Lipoprotein concentration and lecithin: cholesterol acyltransferase activity, effect on cholesterol esterification in human plasma after plasma exchange 45
Lipoprotein synthesis and secretion by cultured human intestinal mucosa 125
Microblobulin, β_2-, turnover in humans of: the constant chain of HLA-antigens 293
Myofibrillar protease activity in muscle tissue from patients in catabolic conditions 357
Obese Zucker, genetically, and obese Sprague-Dawley, dietary, rats, hormonal and metabolic characteristics of 113
Obesity, the effect of beta-adrenergic blockade on metabolic rate and peripheral thyroid metabolism in 179
Osteomalacia, sporadic hypophosphataemic (adult-onset type), plasma vitamin D metabolites in a patient with 369
Osteopenia in diabetic patients with idiopathic haemochromatosis, evidence for 25-hydroxyvitamin D deficiency as a factor contributing to 183
Osteoporosis, postmenopausal, the prevention of 259
Oxalic acid, intrarenal distribution in man 173
Pancreatic polypeptide, effects of, on motilin and circulating metabolites in man 235
Pancreatic polypeptide, exercise-induced release of, and its inhibition by propranolol: evidence for adrenergic stimulation 249
Parathyroid hormone and calcitonin, effects of, on plasma and nephrogenous cyclic adenosine-3′,5′-monophosphate in normal subjects and in pathological conditions 99
Parathyroid hormone fragments in secretory granules of human parathyroid adenomata 317
Phytosterolaemia, xanthomatosis and premature atherosclerotic arterial disease: a case with high plant sterol absorption, impaired sterol elimination and low cholesterol synthesis 27
Plasma aspirin esterases in normal individuals, patients with alcoholic liver disease and rheumatoid arthritis: characterization and the importance of the enzymic components 413
Plasma HDL-cholesterol and apo A-1, increased, in sedentary middle-aged men after physical conditioning 203
Plasma peptides in cyclists with different physical working capacities, the effect of maximal exertion on the levels of 281
Plasma triglyceride concentration, endogenous, regulation of: can we measure the rate of production or of removal of endogenous plasma triglycerides in man? 5
Plasma triglyceride, endogenous, in familial hypercholesterolaemia, metabolism of: studies of affected and unaffected siblings of two kindreds 23
Platelet-activating factor (PAF-acether), release from alveolar macrophages by the calcium ionophore A23187 and phagocytosis 437
Platelets in diseases with elevated muscle calcium, microanalysis and X-ray fluorescence spectrometry of 143
Potassium, intrarenal distribution in man 173
Renin uptake by the right kidney in the rat following partial clamping of the left renal artery 407
Sodium, intrarenal distribution in man 173
Sterol synthesis in human intestinal mucosa, regulation of 227
Uraemia, increased frequency of late pre-β lipoproteins (LPβ) in isolated serum very low density lipoproteins in 423
Urine concentration in awake and anaesthetized dogs, influence of renal denervation on 463
Vegetarians, serum lipids, biliary lipid composition, and bile acid metabolism in, as compared to normal controls 443
Xanthomatosis, phytosterolaemia and premature atherosclerotic arterial disease: a case with high plant sterol absorption, impaired sterol elimination and low cholesterol synthesis 27
